# WHO WE ARE...AND OUR WHY.

In 2013, Philanthropist and Master Channeler Oracle Maureen launched Angels Among Us Foundation (AAUF), a 501(c)(3) nonprofit dedicated to protecting the world's most vulnerable—from impoverished communities in developing nations to endangered animals facing extinction.

Our mission is simple: whether human or animal, every life deserves protection, dignity, and a fighting chance at survival.

AAUF's animal conservation commitment and donations aid in protecting endangered species through habitat preservation, anti-poaching initiatives, and wildlife rehabilitation, creating sanctuaries where vulnerable creatures can thrive while fostering coexistence between communities and wildlife worldwide.

# OUR PARTNERS

Our marketing partners deliver extensive reach across Southern California's golf, tourism, and hospitality sectors, providing direct access to a combined audience of 100,000+ engaged supporters and potential donors.

# JOIN US TO RAISE AWARENESS AND VITAL FUNDS FOR RHINO CONSERVATION

## RHINO POACHING

Every 10 hours, a rhino is killed for its horn—now worth more than gold at \$60,000 per kilogram. Rhino populations have plummeted from 70,000 to fewer than 27,000, with three species now Critically Endangered.

## ILLEGAL TRADE

Rhino horn trafficking thrives on black markets across Asia despite international bans, driven by false beliefs, fueling a violent poaching crisis that threatens the species with extinction.

## NEED FOR ACTION

Strategic funding works: conservation programs have increased rhino populations by 16-21% and reduced poaching by 70%. Your sponsorship funds the anti-poaching technology and ranger teams that have saved over 2,300 rhinos.
